

Invoice & Project Update Request

From: Ahmed Raza <ahmed.raza@techstartup.pk> | To: AI Employee / Owner

■ **PRIORITY: HIGH** — Please process within 24 hours

1. Invoice Request

Hi, I hope this message finds you well. I am reaching out to request the official invoice for the **Website Redesign Project — Phase 2**, which was completed last week. We are closing our books for the month and urgently need the invoice to process payment.

Please ensure the invoice includes the following details:

Item	Description	Amount
1	UI/UX Design — 5 screens	\$600.00
2	Frontend Development (React)	\$850.00
3	API Integration & Testing	\$400.00
4	Project Management (10 hrs)	\$250.00
	Total Due	\$2,100.00

2. Follow-up on Previous Email

I also sent an email last Thursday regarding the **maintenance retainer contract renewal**. I have not received a response yet. Could you please confirm if you received it and let me know the status? The retainer is set to expire on **February 28, 2026**.

3. New Project Inquiry

We have a new requirement coming up — a **mobile app (iOS + Android)** for our internal team to manage field operations. Estimated scope: 8–10 weeks. Can you share a rough quote and your earliest available start date?

ACTION SUMMARY FOR AI EMPLOYEE
